IUPUI's Mentoring Symposium

What is the Mentoring Symposium?
The Mentoring Symposium is an annual one-day event occurring in the fall for all students who serve as mentors on the IUPUI campus as well as from other college mentoring programs established throughout the state of Indiana. It provides an opportunity for mentors to develop an overview and understanding of the theory of mentoring. The goal for this event is to enhance our mentors’ professional development and increase their comprehension of strategies and techniques when mentoring peers. Some of the session topics from past years include applying mentoring skills to life after college, incorporating multimedia innovations into mentoring sessions, four intellectual tasks of college students, and selling mentoring skills to future employers. IUPUI's Mentoring Symposium includes a keynote speaker as well as noteworthy presentations from faculty and staff from around the country.

When and where is the Mentoring Symposium?
The Mentoring Symposium takes place every fall semester on a Saturday, usually extending from 9 AM to 5 PM. The symposium events are distributed all over the IUPUI campus and guest speakers are brought in to facilitate presentations and workshops related to important mentoring topics. If you have a session topic that you would like to present, please contact our Associate Director, Shannon McCullough.

Who attends the Mentoring Symposium?
Mentors from across the nation are invited to attend the Mentoring Symposium. Attendance for IUPUI mentors is mandatory for professional development purposes. Faculty members that are interested in attending or presenting at IUPUI's Mentoring Symposium may do so as well.

Please feel free to contact the Bepko Learning Center if you have any questions regarding the Mentor Symposium at 274-4818. We look forward to seeing you there.
